 Schools, *Statistical Data, Transportation
IDENTIFIERS *Wisconsin

ABSTRACT

The 1967-1968 annual report of Indian education in the state schools of Wisconsin contains data concerning enrollment, attendance, transfers, dropouts, student lunches for Indians, and transportation. Also presented are the Indian Education Fund Financial Statement and other financial data including Johnson-O'Malley expenditures, broken down by district and by school. A narrative section of the document discusses problems involved with Indian education in Wisconsin and tells what is being done to counteract the problems. Related documents are RC 004 162 and RC 004 164. (BD)

e. PROBLEMS INVOLVED WITH INDIAN EDUCATION IN WISCONSIN

(Narrative)

There is a continuing interest in the educational programs and activities relating to Indian education in Wisconsin. A special concern of school boards, administrators, counselors and teachers is evidenced by their support and participation in special training programs and in-service activities for staff members.

A "Work Conference for Teachers of Indian Children" was conducted at Wisconsin State University - Superior during the week of July 29 through August 2, 1968. The workshop was supported financially by the Bureau of Indian Affairs through the State's Johnson-O'Malley Contract. The need for such teacher training was recognized. School personnel became aware of their general lack of understanding about Indians and Indian culture. Fifty teachers enrolled for the week, and it is anticipated that improved educational environments will result from the new skills and insights developed by the teachers.

With the closing of the parochial school in Ashland, the Indian enrollment in the public school increased from 49 in 1966 to 126 in 1968, with the high school enrollment nearly doubling, from 30 to 57. A committee was appointed by the school superintendent to study present services offered by the school system to Indian children and to recommend policies and procedures for future programs and services for Indian children.

Tutoring services for Indian pupils at the Bad River Reservation are provided at night through cooperation from the students at Northland College in Ashland.

At the Lac du Flambeau Elementary School, a three year "Follow Through Project" has been approved for funding by the U. S. Office of Education. About 60 percent of the pupils at Lac du Flambeau are Indians. In addition, the principal enrolled at the University of Minnesota to attend a six weeks "Institute for Advanced Study of Disadvantaged Youth."

At Bowler, a guidance counselor is shared with two other schools during the regular term; however, during the summer months, he is employed full time by the Bowler District to visit with parents and students at their homes. A full-time Indian teachers' aide for the first and second grades has been and will continue to be employed. In the Headstart Program, an Indian teacher will be employed if one can be found; also, two of the four teachers' aides will be Indian. At the Bowler schools, Indian students participate in band, athletics, forensics and F.H.A.

A special counselor continues to be employed at Lakeland Union High School to work with the Indian pupils and parents.

Beginning the 1968-69 school year at Webster, there will be a teacher devoting full time to Indian education with respect to coordinating the efforts of the teaching staff, counseling with pupils and parents and cooperating with other community agencies for both the Webster and Siren school districts.

Bayfield is also improving educational opportunities for Indian pupils. A new kindergarten program will start with the 1968-69 school term of which 50 percent of the pupils enrolled will be Indians.

Other Indian Education programs sponsored by the Department of Public Instruction through Title I Activities, include:

Lac du Flambeau Elementary School

Phase I

Reading improvement for grades 2 - 8. Two teachers and one aide participate in small groups and individualized instruction using audio-visual equipment.

Phase II

Physical examinations, follow-up and referrals, field trips, speakers and films.

Phase III

High school orientation for eighth graders to buoy up academic deficiency, concern with self-image and social adjustment, confer with parents and continue with Phase II.

Hayward

Communication Skills Program.

Forty-five children at the Mission School on the Reservation are assisted by a staff of four to develop communication skills. A mobile unit makes home contacts to provide services from a nurse, audio-visual material, books and periodicals. In addition, an evening study center and health services are provided.

West De Pere

Oneida Indians at High View School.

Sixty children and parents participate in an evening program conducted by four teachers. It is an enrichment program involving art, music, the Oneida language and story reading. A day program emphasizes enrichment through reading development.

Seymour

Has the same program as West De Pere.
